Need for equipment and additional comments / information

Comments on Equipment

- Tools must be appropriate for the range of jobs the restoration requires.
- Must be safe to use or provide warnings about their inherent risk.
- Where the tools do carry some risk (for example backpack sprayers) personal protective gear should be purchased at the same time and included in the costing.
- Note Uses of dangerous equipment must the appropriate accreditation to ensure that the landowners agency's occupational safety and health obligations can be fulfilled.

Funds are not available large capital items or for those that require qualified users such as chainsaws, mulchers or scrub bars.
